Introduction	xv
Chapter 1 Exploring the Dreamweaver Work Area and Components	1
The Work Area—Your Home away from Home	2
Understanding the Dreamweaver Work Area	2
Using the Dreamweaver Views	4
Working with the Launcher Bar	5
Understanding the Toolbar	13
Customizing Dreamweaver Preferences	17
Customizing General Preferences	17
Customizing Fonts and Encoding Preferences	18
Working with Keyboard Shortcuts	21
Working with Extensions and Dreamweaver 4	22
Summary	22
Chapter 2 Planning a Mission Critical Web Site	23
Advanced Planning Prevents Poor Performance	24
Setting Goals	24
Understanding Site Structure and Preparation	24
Summary	34

Chapter 3	Your Site's Foundation—The Document	35
	Understanding Document Properties	36
	Creating a Blank HTML Document	36
	Setting and Changing Document Properties	42
	Changing a Page Title	43
	Setting Page or Background Colors	47
	Defining Background Elements	48
	Setting up Default Text Colors	49
	Controlling Invisible Elements	51
	Selecting an Invisible Element	51
	Selecting a Complete Tag	52
	Revealing Comments	53
	Setting up Visual Guides	55
	Working with Visual Guides for Window Sizing	55
	Ruling Rulers	59
	You Don't Have to Draw—You Can Trace	61
	Placing the Tracing Image in a Document Window	61
	Hiding or Showing the Tracing Image	63
	Changing the Tracing Image Position	63
	Resetting the Tracing Image Position	64
	Aligning the Tracing Image with a Selected Element	65
	Head Content Section Management	66
	Viewing Head Content	66
	Inserting an Element into the Head Section	66
	Editing an Element in the Head Section	67
	Task Automation	68
	Repeating the Last Step Performed	68
	Repeating a Series of Adjacent Steps	69
	Repeating a Series of Non-Adjacent Steps	70
	Applying Steps to a Different Object	70
	Creating a New Command from History Steps	71
	Summary	72

Chapter 4	Laying out a Web Page	73
	Layout Cells and Tables—A Mini-Tutorial	74
	Designing Layout Cells and Tables	74
	Working with Layout Width—Fixed and Autostretch	82
	Using Dreamweaver's Grid Guides	83
	Displaying or Hiding Grid Lines	84
	Changing Grid Settings	86
	Summary	
Chapter 5	Framing Your Pages	87
	Creating a New Frame	88
	Making Frame Borders Visible	89
	Designing a Frameset	90
	Creating a Frameset	91
	Creating Nested Framesets	93
	Saving Frames and Framesets	94
	Setting Frame Properties	98
	Summary	
Chapter 6	Hoarding Your Assets	99
	Defining the Assets Panel Categories	100
	Using the Assets Panel	103
	Refreshing the Site List	103
	Adding Assets to the Favorites List	104
	Adding Assets to Your Pages	106
	Editing Assets	107
	Manipulating Assets to Work for You	109
	Summary	112
Chapter 7	Consistency and Style—A Class Act	113
	Placing Text and Objects	114
	Inserting Text	114
	Inserting Tables, Images, and Objects	115
	Importing Tabular Data	117
	Inserting Today's Date	120
	Building Lists, Font Families, and Horizontal Rules	121

	Text Colors	126
	Aligning Text	126
	Cascading Style Sheets	128
	Using an External CSS	128
	Search and Cleanup	136
	Spell Checking	136
	Using Search and Replace	138
	Saving Search Patterns	139
	Summary	140
Chapter 8	You've Got That Look—Using Images	141
	Inserting Images	142
	Setting the Image Properties	144
	Understanding the Property Inspector	144
	Resizing Images	149
	Using Client-Side Image Maps, Hotspots, and Rollovers	149
	Working with Image Maps and Hotspots	150
	Creating Rollover Images	153
	Testing Rollover Images	155
	Using External Imaging Editors	156
	Setting Fireworks as the External Image Editor	157
	Applying Behaviors	161
	Applying Behaviors to an Image	161
	Summary	162
Chapter 9	Now That's Teamwork! Dreamweaver and Fireworks Together ..	163
	Placing Fireworks Files into Dreamweaver Pages	164
	Inserting a Fireworks Image into Dreamweaver	164
	Inserting Fireworks HTML Code into the Document	165
	Copying, Pasting, and Exporting Fireworks Files	167
	Launching Fireworks from Dreamweaver	173
	Setting Launch and Edit Preferences for Fireworks	173
	Editing Fireworks Files within Dreamweaver	174
	Editing Fireworks Images	175
	Editing Fireworks Tables	177

Optimizing Fireworks Images and Animations in Dreamweaver	178
Changing Optimization Settings	178
Working with Web Photo Albums	180
Creating a Web Photo Album	180
Summary	184
Chapter 10 Add Visual Excitement—Insert Media!	185
Inserting Multimedia Objects into a Web Page	186
Attaching Design Notes	189
Working with Flash Files—An Overview	192
Using Flash Button Objects	192
Working with Flash Text Objects	198
Inserting Flash Movies into Your Web Site	201
Working with Sound Files	204
Linking to Audio Files	206
Embedding Audio Files	207
Parameters and Behaviors—Controlling Media	210
Controlling Shockwave or Flash Files	211
Controlling Sounds	214
Controlling Netscape Plug-Ins	215
Summary	218
Chapter 11 Your Chain of Experience—Navigating with Links	219
Creating Links with Tools	220
Using the Property Inspector to Create Links	220
Setting Links inside a Document	225
Creating a Named Anchor	225
Linking to a Named Anchor	228
Using Point-to-File to Link to a Named Anchor	229
Creating E-Mail Links	231
Using the E-Mail Link Command	231
Creating an E-Mail Link Using the Property Inspector	232
Working with Null and Script Links	233
Creating Null Links	233
Creating Script Links	234

Managing Your Site Links	235
Activating Link Management	235
Site Map Link Management	236
Designing Jump Menus and Navigation Bars	243
Inserting a Jump Menu	243
Working with Navigation Bars	245
Controlling a Link with Behaviors	248
Setting Status Bar Text	248
Using the Open Browser Window Behavior	249
Working with the Jump Menu	252
Setting the Nav Bar Image Behavior	253
Summary	254

Chapter 12 Form Your World—Site Forms and Scripts 255

Understanding the Forms Category	256
Creating Forms	257
Adding Forms to Documents	257
Adding Form Fields	260
Permitting Site Visitors to Upload Data	262
Creating Hidden Fields	263
Inserting Form Objects: Check Boxes and Radio Buttons	264
Inserting a Check Box	264
Inserting a Radio Button	265
Designing Lists and Menus	266
Creating Scrolling Lists	266
Creating Menus	269
Working with Forms and Behaviors	271
Summary	273

Chapter 13 Manage and Collaborate, Test and Publish—A Polished Site . . . 275

Traveling with the Site Map	276
Using the Site Map	276
Setting up a Remote Site	282
Associating the Remote Server with a Local Site	282
Using FTP to Connect to a Web Server	283

What Time Will You Check In and Out?	285
Checking Out Files from the Remote Server.	285
Checking In Files to a Remote Server	286
Using Reporting to Improve Team Communication	287
Running the Checked Out Report	287
Running Design Note Reports	289
Getting Files from a Remote Server	291
Putting Files on a Remote Server	292
Synchronizing Files on Local and Remote Sites	293
Using Behaviors to Detect Plug-Ins and Browsers	295
Checking Browser Behavior.	295
Using the Check Plugin Behavior.	297
Validating Download Times and Sizes	299
Setting Download Time and Size Preferences.	299
Summary	300
Appendix A PC and Macintosh Keyboard Shortcuts	301
Appendix B Tools to Use as You Work	311
Dreamweaver Sites	312
Markup Language Sites.	312
Sites to Give You Ideas	313
Discussion Lists and Newsgroups.	313
Glossary	315
Index.	321
